Why Choose The Essentials of Leadership Training Course?

The human tragedy and economic devastation that recent world events have bestowed on mankind, forces all to profoundly reflect on how we rebuild the future. In facing this challenge, the role of leadership has never been more critical to regenerate, repair and restore human sustainability.

Unpredictability, uncertainty and chaos have become the "new normal" in the leadership environment.

The 'New Normal' has reinforced our thinking that leadership is not solely concerned with immediacy, growth and profitability, rather in these unprecedented times it requires a broader perspective – a Long Eye and a Short Eye

This 'holistic approach" demands praxis, pragmatism and indeed 'prophecy' to embrace digital transformations, agility in action and innovatively inspiring. Whilst the traditional leadership qualities remain fundamental, dealing with crisis has emerged as an area for serious consideration for leadership to address.

In the new normal "crisis does not build leadership characteristics, rather it reveals the qualities that underpin it".

Join like-minded committed professionals on this intensive Essentials of Leadership training course to discuss, debate and reframe the way you vision leadership and rejuvenate your practice.

This The Essentials of Leadership training course will feature:

• Advanced psychometric evaluations of personal leadership style; their outcomes and indicators

• Holistic praxis: leadership to Inspire, innovate and build sustainability within the organisation

• Emotional Intelligent leadership to promote individual and organisation wellbeing

• Decision-making tools that create focused solutions to "what if "problems and crisis management

• Practical "Ideation" techniques to reframe outmoded business models to build the resilient enterprises of tomorrow.

What are the Goals?
