Why Attend

Why Attend Modern internal auditors are increasingly expected to move beyond traditional assurance activities and contribute strategic value through advisory and consulting services. This course equips participants with the practical consulting skills needed to strengthen governance, improve risk management, enhance organizational performance, and communicate recommendations effectively while maintaining professional independence.

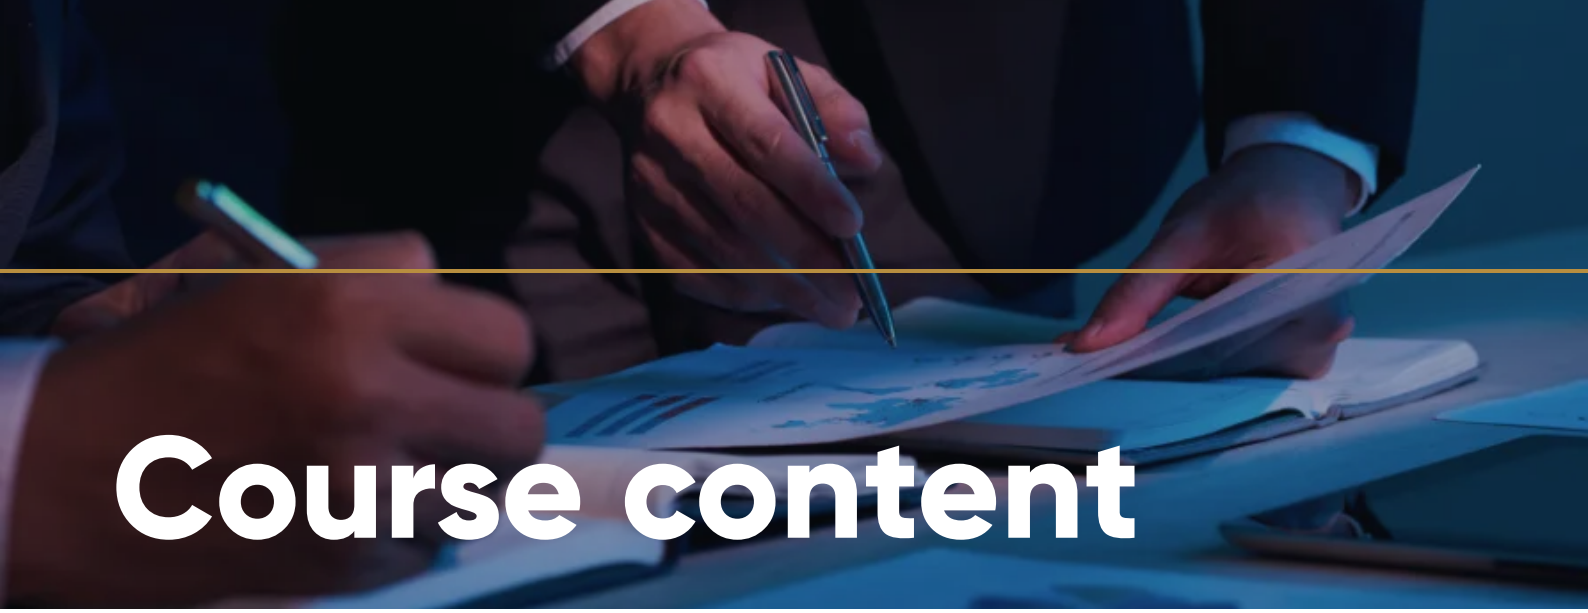
Course Methodology The course combines interactive presentations, practical workshops, case studies, consulting simulations, group discussions, role-playing exercises, and real-life audit scenarios to support hands-on learning and application.

Course Objectives By the end of this course, participants will be able to:

- Understand the evolving consulting role of internal auditors
- Apply consulting approaches within audit and governance activities
- Strengthen communication and advisory skills
- Improve problem-solving and analytical capabilities
- Develop effective consulting engagement processes
- Enhance organizational risk management and compliance frameworks
- Deliver value-added recommendations and strategic support

Target Audience

- Internal auditors
- Audit supervisors and managers
- Risk management professionals
- Compliance officers
- Governance specialists
- Financial controllers



Course content

Target Audience

• Professionals involved in assurance and advisory functions

Target Competencies

• Internal auditing practices
