Course content

Why Attend

Why Attend Successful organizations align budgeting, forecasting, and business planning to improve performance, manage uncertainty, and achieve strategic goals. Integrated planning enables better resource allocation, stronger financial control, and faster responses to market changes. This course provides participants with practical tools to connect strategy with budgets, forecasts, cost analysis, and investment decisions.

Course Methodology This course uses an interactive and practical approach through presentations, case studies, Excel exercises, budgeting workshops, forecasting models, financial analysis, and real workplace examples.

Course Objectives

- Integrate budgeting, forecasting, and business planning processes
- Link financial plans with strategic objectives
- Develop effective operating and cash budgets
- Apply forecasting tools using historical data
- Use activity-based budgeting and cost analysis techniques
- Evaluate capital investment opportunities
- Improve planning accuracy and decision-making
- Build a practical integrated planning framework

Target Audience

- Finance and Accounting Professionals
- Budget Analysts
- Planning Managers
- Department Managers

Course content

Target Audience
