Course content

Why Attend

Crises can disrupt government operations, erode public trust, and threaten societal stability. This course equips government professionals with the skills and strategies needed to anticipate, respond to, and recover from crises effectively.

Participants will learn how to build robust crisis management frameworks, enhance resilience, and protect citizens and critical infrastructure during emergencies.

Course Methodology

The course adopts an interactive and practical approach, including:

- Lectures and expert insights to understand crisis management principles.
- Case studies to analyze past crises and lessons learned.
- Simulations and role-playing to practice real-world crisis scenarios.
- Workshops to develop response plans and protocols.
- Group discussions to foster knowledge-sharing and collaborative problem-solving.

Course Objectives

By the end of this course, participants will be able to:

- Understand the principles and phases of crisis management.
- Identify potential risks and vulnerabilities in their agencies.
- Develop comprehensive crisis response and communication plans.
- Coordinate effectively with stakeholders during crises.
- Manage media relations and public communication during emergencies.
- Implement recovery strategies to restore normalcy and improve resilience.

Course content

Target Audience

This course is designed for:

• Government officials and policymakers involved in emergency management.

• Public sector leaders responsible for risk and crisis planning.

• First responders and emergency services personnel.

• Professionals in disaster management and public safety.

• Consultants and advisors in crisis management.

Target Competencies

Participants will develop competencies in:

• Crisis planning and risk assessment

• Emergency response coordination

• Effective communication during crises

• Decision-making under pressure

• Stakeholder engagement and collaboration

• Post-crisis recovery and resilience building

Course outline

Day 1: Foundations of Crisis Management

• Understanding the nature and impact of crises

• The crisis management lifecycle: Preparedness, response, recovery

• Key principles of effective crisis management

• The role of leadership and governance in managing crises
