Why Attend

Why Attend Training and learning functions are evolving rapidly through technology, data analytics, changing workforce expectations, and modern learning science. HR professionals must adopt innovative methods that improve engagement, deliver measurable results, and support organizational performance. This course provides participants with practical tools in AI, digital learning, training evaluation, psychometrics, and instructional design to modernize learning and development practices.

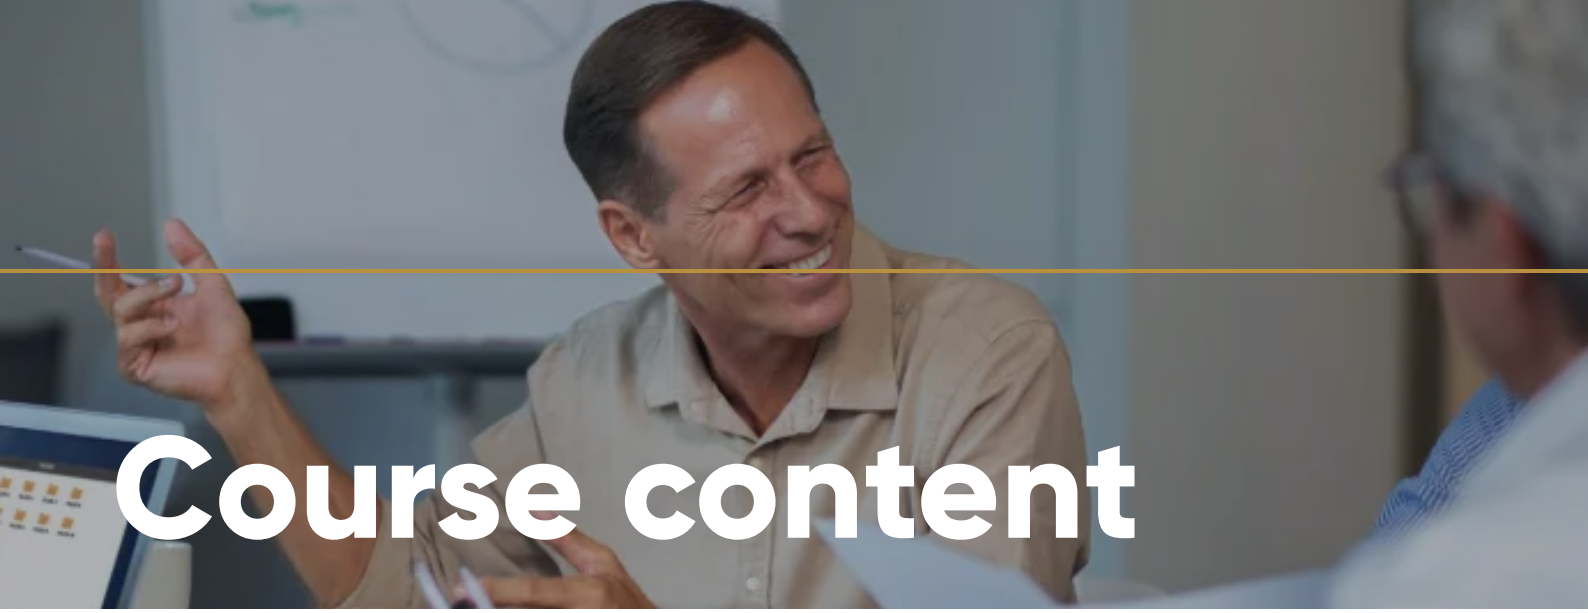
Course Methodology This course uses an interactive and practical approach through presentations, case studies, group discussions, learning design workshops, analytics exercises, practical activities, and real workplace examples.

Course Objectives

- Understand modern trends in HR training and learning
- Apply technology and AI in learning and development
- Conduct effective training needs analysis
- Measure learning impact using metrics and ROI tools
- Use adult learning principles in program design
- Apply psychometric tools appropriately
- Create effective learning objectives and content
- Build innovative learning strategies for future workforce needs

Target Audience

- HR Professionals
- Learning and Development Specialists
- Training Managers
- Talent Management Professionals



Course content

Target Audience

- HR Managers
- Instructional Designers
- Anyone responsible for employee development

Target Competencies

- Learning and Development
- Training Needs Analysis
- Instructional Design
- Learning Analytics
- Digital Learning
- Talent Development
- Strategic Thinking
- Performance Improvement

Course outline
